Part of the KP Acoustics Group

Senior / Principal Acoustic Consultant in London and

Assistant Acoustic Consultant in Dorking - Office-based/hybrid, with project-based travel.

KP Acoustics Group is a global acoustics consultancy providing independent noise and vibration services across a wide range of sectors. Our work spans four core areas: Consultancy, Monitoring, Research, and Training. We also develop advanced acoustic monitoring technology, including our eNView™ platform.

Our consultancy team delivers projects ranging from planning assessments to large-scale developments across residential, commercial, education, healthcare, and infrastructure sectors. We are recognised for providing clear, robust, and practical advice trusted by clients, design teams, and local authorities.

Due to continued growth, we are seeking an experienced Senior or Principal Acoustic Consultant to join our London team and an Assistant Acoustic Consultant to join our KPA South team.

Our KPA South team primarily supports projects across Surrey and the wider South of England, from the South West through to East Kent. We also work closely with colleagues across the KP Acoustics Group, supporting projects throughout the UK as required.

Senior / Principal Acoustic Consultant

The role is suited to consultants with a strong background in acoustic consultancy and who are capable of managing a diverse project portfolio across multiple sectors. You will work directly with our clients, supporting them from early planning through to project completion.

Experience in team leadership and mentoring is highly desirable.

Assistant Acoustic Consultant

This is an excellent opportunity for someone with approximately 1–3 years' consultancy experience to take on greater responsibility and develop their technical expertise. You will work across varied acoustics projects, taking ownership of site surveys, contributing to assessments and reports, and supporting project delivery.

You will contribute to a growing regional team, working closely with experienced consultants and drawing on the wider KP Acoustics Group's expertise. We are looking for someone who is confident undertaking routine surveys independently, takes pride in high-quality technical work and is motivated to develop into a well-rounded acoustic consultant.

Key Requirements

Senior / Principal Acoustic Consultant

- Minimum 6 years' experience in acoustic consultancy across a range of sectors, particularly in building acoustics (experience in environmental acoustics is beneficial).
- Strong working knowledge of relevant legislation, British Standards, and planning guidance.
- Ability to manage and mentor other team members.
- Confidence in preparing technical reports and leading acoustic assessments.

Assistant Acoustic Consultant

- Approximately 1 – 3 Years' experience in acoustic consultancy, including practical experience undertaking acoustic measurements using sound level meters and associated monitoring equipment.
- Confidence attending sites and carrying out routine acoustic surveys independently.

- Experience contributing to technical reports and acoustic assessments.
- A working understanding of relevant British Standards and acoustic assessment methodologies.
- Bachelor's degree in a relevant discipline and/or IOA Diploma in Acoustics and Noise Control.

Both Positions

- UK-based with Right to Work in the UK.
- Confident communication with clients, design teams, and stakeholders.
- Ability to manage workload, priorities, and deadlines in a hybrid environment.
- Strong organisational skills, initiative and a proactive approach to problem-solving.
- Good written communication skills, with attention to technical accuracy and report presentation.
- Full UK driving licence and willingness to travel as required.

What We Offer

- Competitive salary.
- Comprehensive benefits package.
- Exposure to a diverse and technically challenging project portfolio.
- Opportunity to work alongside an experienced and respected team.
- Clear pathway for career progression within a growing business.

If you are motivated and looking to progress your career in acoustics, please send your CV and a brief introduction outlining your relevant experience and interest in the role to our Consultancy Manager at sl@kpacoustics.com.
